

Application Developer Elections Saskatchewan

Join the Elections Saskatchewan team!

Help shape Saskatchewan's largest province-wide event from the ground up. Bring your expertise to a fast-paced, high-impact environment where your work will directly support the secure and successful delivery of provincial elections. Join Elections Saskatchewan and make a difference.

We are looking for an experienced and energetic Application Developer. The position will help modernize, maintain and support the custom applications that enable Elections Saskatchewan's core operations. Reporting to the Director of Information Technology, the Application Developer will serve as a key internal application-development resource and the primary technical owner for Elections Saskatchewan's business-critical custom applications.

Responsibilities include:

- Design, develop, test, deploy, maintain and support secure production applications using current, supported .NET technologies.
- Lead technical design and hands-on development for approved enhancements, integrations, APIs, reporting and lifecycle updates.
- Maintain Azure DevOps repositories and CI/CD build and release pipelines and support controlled deployments across development, test, user-acceptance, staging and production environments.
- Provide production troubleshooting, documentation, secure coding, application lifecycle management and occasional after-hours support.
- Collaborate with business users, senior management, data analysts, database resources, vendors and contracted developers.

Qualifications:

- A degree or diploma in computer science, software engineering, information technology or a closely related discipline from a recognized post-secondary institution.
- 8 - 10 years of progressively responsible experience, or an equivalent combination of experience and demonstrated ability.
- At least five years of recent, hands-on experience developing and supporting production applications using .NET Core or a current, supported version of .NET.
- Advanced experience with C#, ASP.NET Core, current supported .NET versions, ASP.NET MVC, Razor, Entity Framework/Core, SQL Server, T-SQL, RESTful APIs, JavaScript, jQuery, HTML, CSS and Bootstrap.

Application Developer Elections Saskatchewan

- Recent experience modernizing or upgrading complex applications from legacy .NET Framework versions to current, supported versions of .NET; experience with Telerik UI for ASP.NET and SQL Server Reporting Services; experience with Visual Studio, Git-based source control, Azure DevOps repositories, CI/CD practices, and Azure DevOps build and release pipelines would all be considered to be assets.
- Experience modernizing legacy .NET applications and experience with React or Angular would be an asset.

Elections Saskatchewan employees are expected to demonstrate a high degree of professionalism, sound judgment and discretion, and to protect confidential and sensitive information given the independent, non-partisan and public-interest nature of the organization's work.

Employment Conditions:

- Permanent, full-time appointment subject to Elections Saskatchewan's standard probationary period.
- Fully onsite in Regina. Remote work arrangements will not be considered.
- No travel is required.
- Must be legally entitled to work in Canada.
- Additional hours may be required during demanding operational periods. Occasional after-hours production support and on-call participation during electoral events are required.

The salary range for this position is \$94,356 to \$122,676 (MCP 07) per annum. Appointment is subject to the submission of a satisfactory criminal record check.

Interested applicants should email a cover letter and resume to humanresources@elections.sk.ca by November 3, 2026. Only those invited for interview will be contacted.

Elections Saskatchewan is an independent, non-partisan agency that receives its mandate from the Saskatchewan Legislative Assembly. Elections Saskatchewan organizes, manages and oversees provincial electoral events and ensures that candidates, political parties and interest groups comply with election legislation and proper financial reporting.
